To Whom It May Concern:

RE. Work reference for Mr Bruno Caiazza
Co /Director of Caiazza Constructions

Dear Sirs,

We are an upper market builder that has been actively involved in the construction of quality homes for the past twenty years, we have been fortunate enough to win on two occasions, the HIA House of the year in 2005 and 2008 and a number of other housing awards including recently the MBA custom home of the year over 1.5million for our "insitu concrete" home at Glen Osmond.

Bruno and his partner Marcello where hand selected to carry out this specialist type of work as the whole home including floors, walls ,ceilings and roof was all formed up, poured and finished on site to achieve a class 2 finish.

The concrete was the finished material, so there was no second chance!

Caiazza Constructions carried out the work successfully and managed all the logistics, safety and quality control of this project, with well over 700m3 of concrete poured the consistency of all the finishes was a credit to their team. In my experience dealing with Bruno, I have found him to be honest, an excellent communicator with a strong work ethic and a person who always tries to produce a consistent quality of work.

I believe Bruno Caiazza has the necessary experience and skills to adapt himself as a building works supervisor and wish him all the best on this endeavour. For any other queries on this matter, please don't hesitate to call me on 0429420186

Yours Faithfully,

Krivic Built
